

Germ tests and bacterial suppression

Sustainable and Biobased

Operation

1. Sanipolymers
2. Coating, e.g. furan-based
3. Chitosan from shrimp shells
4. Pyrolysis oil

Unique...

1. Breakthrough innovation
2. Unique consortium
3. Various biomass flows come together
4. Availability of cycles
5. 80% reduction of CO₂
6. When successful business plan is ready
